## HEALTH INDUSTRY SOLUTIONS

RELIABILITY, COST EFFICIENCY AND EXCEPTIONAL PERFORMANCE. IT'S WHAT WE DELIVER.

Maintaining a clean and sterile working environment is one of the greatest priorities in the healthcare industry. However, this can be a constant challenge due to maintenance problems that many facilities face. These include corrosion of equipment, such as air handling units and cooling towers, damaged floors and walls that make cleaning difficult and provide deposit areas for bacterial growth, and the galvanic corrosion of pipes and equipment that introduces corrosive elements and toxic metals into water systems. These issues often result in increased operational costs for facilities.

Atlas understands these challenges, so we provide reliable, cost effective and easy-to-use solutions to eliminate these maintenance burdens.

### OUR SPECIALLY FORMULATED MATERIALS PROTECT YOUR EQUIPMENT

- Extreme resistance to corrosion
- Antibacterial coatings
- Fast and easy to clean
- Quick return to service for your equipment
- No hazardous or odor-causing solvents

### HIGH VALUE AND OPTIMAL RESULTS FOR HOSPITAL APPLICATIONS

- Floors, walls and roofs
- Pipes, sumps and drains
- Air handling units
- Fans, blowers and compressors
- Cooling towers
- Clean & operating rooms

**ATLAS**  
POLYMERS

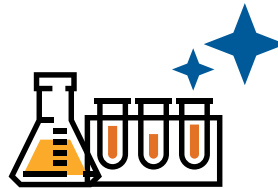

## ADDITIONAL AREAS WHERE PROTECTION IS OFTEN PROVIDED:

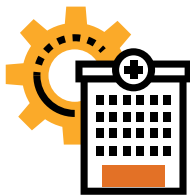

### FLOORS & SAFETY

- Step safety grip systems
- Ramp safety grip systems
- Concrete repair and protection

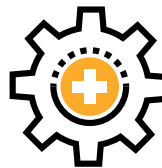

### CLEAN SURFACES

- Antibacterial coating applications
- Kitchens
- Non-stick surfaces to reduce build-up
- Bathrooms and showers
- Operating rooms
- Laboratories

### INFRASTRUCTURAL

- Pump repair and protection
- Sealing and repair of drainage systems
- Sumps
- Worn and leaking valves
- Leaking pipework and fittings
- Corrosion protection in fluid handling systems

### GENERAL EQUIPMENT & INFRASTRUCTURE

- Wall repair and protection
- Corrosion protection of cooling towers
- Waterproofing and weatherproofing roofs
- Scored shafts
- Heat exchanger repair and protection
