## WASTEWATER INDUSTRY SOLUTIONS

RELIABILITY, COST EFFICIENCY AND EXCEPTIONAL PERFORMANCE. IT'S WHAT WE DELIVER.

Collecting and processing raw sewage into reclaimed water poses unique operational challenges, especially when moving through the mechanical, chemical and disinfecting stages. The wear on wastewater equipment from abrasion, erosion, corrosion, and chemical attack often results in failures that are a constant maintenance burden. This inevitably leads to increased costs for labor and equipment replacement.

Atlas understands these challenges, so we provide reliable, cost effective, and easy-to-use solutions that help you repair, protect and maintain equipment. We help you keep your equipment running longer, more efficiently, and more safely.

### OUR SPECIALLY FORMULATED MATERIALS PROTECT YOUR EQUIPMENT

- Get extreme resistance to abrasion, impact, corrosion, and chemical damage
- Defend equipment against aggressive chemicals, extreme impact, and abrasion
- Maximize your equipment uptime, efficiency, and safety
- Decrease labor and replacement costs
- Quickly return equipment to service

### HIGH VALUE AND OPTIMAL RESULTS FOR WATER & WASTEWATER APPLICATIONS

- Deaerators, absorbers and process vessels
- Clarifiers
- Sludge dewatering
- Floors, walls and roofs
- Digesters
- Pipes, sumps and drains
- Fluid handling equipment
- Filtration

**ATLAS**  
POLYMERS

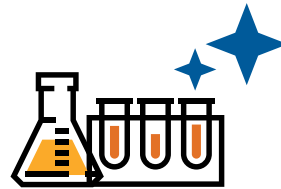

## ADDITIONAL AREAS WHERE PROTECTION IS OFTEN PROVIDED:

### FLOORS & SAFETY

- Step safety grip systems
- Ramp safety grip systems
- Loading dock safety grip systems
- Concrete repair and protection

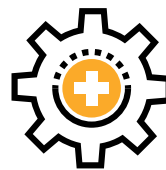

### CHEMICAL TREATMENT

- Chemical and corrosion protection in fluid handling systems
- Chemical and corrosion protection in containment areas
- Tank lining

### FLUID HANDLING EQUIPMENT

- Pump repair and protection
- Sealing and repair of drainage systems
- Sumps
- Worn and leaking valves
- Leak sealing in tanks
- Leaking pipework and fittings

### GENERAL EQUIPMENT & INFRASTRUCTURE

- Corroded tank bases
- Clarifier trough coating
- Clarifier running track repair
- Abrasion protection of auger screws
- Wall repair and protection
- Eroded fans and blowers
- Worn chutes and hoppers
- Water and weatherproofing roofs
- Scored RBC shafts
